

Dear Parents/Carers,

I would like to take this opportunity to thank you for supporting us over the last four years with your son/daughter's Science education. As you will be aware your son/daughter will achieve two or three Science GCSEs in the summer and we want to continue to support them so they can reach their full potential in Science.

Therefore we advise that all students attend revision sessions after school every week. We will be running these sessions on a Tuesday and Thursday from 3pm until 3.50pm. Your son/daughter can choose to attend either the Tuesday or Thursday sessions, but they must go to their normal class teacher.

Now the mock exams are over your son/daughter should focus on what they need to improve upon ready for the summer exams as some of the content for these GCSEs was taught in Year 9.

To support your son/daughter I would recommend that they purchase a revision guide and we can order them through school at a cheaper rate. Combined Science revision guides are available for £4.50 and the separate Science guides are available at £2.75 each. If you are unsure as to which tier your son/daughter is sitting, please contact their Science teacher.

The school has also signed up to a number of free revision websites which allow students to access revision material through their media devices. Educake is an online Science quiz platform, where teaching staff regularly set homework and students are able to set their own quizzes for specific topics. Whereas My GCSE Science is more focussed towards revision of specific topics through video, exam questions and making notes. Students have been given their login information for these sites already, however if they are having difficulty with accessing these sites then please speak to your Science teacher in the first instance.

Thank you again for your support and please do not hesitate to contact myself or your son/daughter's class teacher.

Kind regards,

*Chris Beattie*

Head of Science
